DETAILED ACTION

1. This action is responsive to the following: Original Application filed on 29 September 2003, claiming foreign priority to 28 March 2003.
2. Claims 1-20 are pending. Claims 1, 3, 6, 7, 10, 16, and 18 are independent.

Priority

3. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

Drawings

4. The drawings are objected to as failing to comply with 37 CFR 1.84(p)(5) because they include the following reference character(s) not mentioned in the description:

- Figure 6 – Reference numeral 501;
- Figure 7 – Reference numeral 502; and
- Figure 8 – Reference numeral 503.

Corrected drawing sheets in compliance with 37 CFR 1.121(d), or amendment to the specification to add the reference character(s) in the description in compliance with 37 CFR 1.121(b) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37

Art Unit: 2161

CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Claim Rejections - 35 USC § 112

5. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

6. **Claims 1-20** are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

7. **As per independent claims 1-8, 10-11, 14, and 16-20**, the recited claim language fails to particularly point out and distinctly claim the definition and scope of an “inclusion degree,” and the limitations of “calculating an “inclusion degree.” For correction and amendment purposes, Applicant should take into consideration the limitations set forth by the claim language of claim 15, wherein this reads over:

“the inclusion degree calculation module regards each block as a relevant block if the similarity of the block is higher than a preset value and the full-text search condition relevancy of the block is higher than a preset value, counts the number of the relevant blocks included in the object document, and calculates the inclusion degree of the object document by use of the counted number of relevant blocks and the total number of blocks included in the object document” (claim 15).

8. **As per dependent claim 4**, line 10 of the claim recites “a full-text search.” It is unclear whether this is intended to be the same as or different from “a full-text search” recited in line 5 of the claim.

Art Unit: 2161

Allowable Subject Matter

9. **Claims 1-20** would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.
10. **Claim 3** would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.
